

CHD Tribute/Memorial

Canadian Congenital Heart Alliance (CCHA) shares stories of Congenital Heart Disease (CHD) journeys with the CHD community. However, we also want to share and honour those who were lost too soon. We share these stories to help connect people and families with similar experiences, offer support, and emphasize the need for further research and awareness of CHD.

The tribute is shared on social media twice a year. Once at the end of Heart Month on February 28 and again later in the year.

By responding to this form you are consenting to CCHA using your story and photograph (if applicable) for:

1. educational, fundraising, and awareness purposes;
2. publication in print, other media or on the Internet and using different social media outlets, such as Facebook and Twitter; and,
3. presentation at fundraising or other events, both virtual and in-person, for CCHA.
